October 2017

Stephen M Robertson
Chief Executive Officer

EXECUTIVE REPORT:

The AGM information including the Draft Strategic Plan has been placed on the web site for your perusal, and I look forward to catching up with you at the Stamford Hotel at the AGM.

MWOA eServices:

As you would be aware by now, the MWOA is going totally electronic with all correspondence including invoicing, events and meeting notices, and also eACCESS. If you know of a member not receiving the communications please get them to give me a call so as we can update our data base.

The NW&EC has come and gone and I wish to thank all the delegates and sponsors for their support.

The following awards were recognised on the Thursday evening at the conference and will again be open for next year with applications being placed on the web in December.

NW&EC International Study Tour Award:

- Darren Findlay, City of Hobsons Bay

R& S Grating Award:

- Luke Ives, City of Ballarat

Polycom Maintenance Award:

- Rory Hazeldine, Alpine Shire

Dial Before You Dig Award:

- Wayne Rowen, COGG (Bendigo)

Congratulations to all the award winners and we wish them well with their travels and endeavours for the future.

Speaker: Lynn Undy
Australian Warning Systems

"Vehicle Message Boards (VMS) introduced into road safety quite some time ago, and now we have a new innovation on the old system, which once again has taken a leap forward in saving lives".

This is a real opportunity to get the "Behind the Scenes" story of the new innovative VMS Boards with "Asian Text" designed and recently implemented on the Great Ocean Road.

Next Meeting:

R&S Grating, 6th December
13 Healey Rd, Dandenong South

Enterprise level programming solutions

We're not your ordinary software shop.

If you can think it, we can do it

We do apps. Have a great app idea but don't know how to implement it? We can do that. Do you have an existing web application but need a mobile solution? We can do that too.

We live on the web. Need a web site that functions as good as it looks? We take pride in creating custom web applications that look as good as they perform.

For over 30 years we have provided desktop solutions. If you have a need for a desktop application, we can do it. We will help you design, architect, and build the best desktop solution.

What can we solve for you?

With over 30 years of industry experience, there isn't much we haven't seen. Desert Software Solutions provides architectural and general consulting services for projects needing guidance or a third person perspective. We will steer your project in the right direction and give you advice on how to best proceed. If you are stuck and need help, let us lend a helping hand.

Desert Software Management Systems have developed a full integrated Occupational Health & Safety management system for the monitoring and filing process of site paperwork.

This system allows Managers, Occupational Health & Safety Officers and Project Managers the ease of remotely tracking their management system. Contractor and staff auditing is simplified as all forms, reports and checklists are sent to a designated email, server or website, which enhances the manager's ability to track that OH&S requirements are being met by all staff and contractors.

Each tailored system keeps all filing online, eliminating the need for paper filing and submission. Available on iOS & Android Devices
